

ARYAMAAN UPADHYAY

B.Tech CSE (Second Year) | AI/ML, LLM Evaluation & Full-Stack Development

+91 70114 34159 | the.aryamaan.upadhyay@gmail.com | Bengaluru, India
[linkedin.com/in/aryamaan-upadhyay-ishie](https://www.linkedin.com/in/aryamaan-upadhyay-ishie) | github.com/thearyamaan | Portfolio

EDUCATION

Manipal Institute of Technology (MAHE), Bengaluru

2025 – 2029 (expected)

B.Tech in Computer Science & Engineering, Second Year

- **CGPA:** 7.53 / 10, rising each semester (SGPA 7.15 in Sem 1, 7.91 in Sem 2)
- **Coursework:** Data Structures, Data Analytics, Discrete Mathematics, Computer Networks, Computer Organization, OOP

Mount Carmel School, Dwarka, New Delhi | CBSE Class XII: 80%, Class X: 92%

2025

EXPERIENCE

AI Model Evaluation Fellow, Handshake AI

Jul 2026 – Present | Remote

- Design adversarial, multi-hop search prompts across 15+ domains to surface hallucination, retrieval and reasoning failures in frontier LLMs with web search; work feeds evaluation datasets used by leading AI labs
- Identify recurring failure modes such as fabricated figures, incomplete traversal of long lists and wrong-column reads in dense tables, and document each with a source-grounded ground-truth trajectory

AI Intern, Personify (via 1Stop, with Kshitij, IIT Kharagpur)

Dec 2025 – Apr 2026 | Remote

- Built four deep learning projects in TensorFlow: NLP text classification, object detection, pet face classification (CNN with transfer learning and data augmentation) and landmark detection (regression-based keypoint localisation)

Research Intern, Department of Management Studies, IIT Delhi (under Prof. Ravi Shankar)

Jul 2026

- Studied governance of AI-generated synthetic media in *Deepfakes in India: Institutional Vulnerability, Governance Barriers, and an Interpretive Structural Model of Critical Success Factors*
- Ran an expert-elicitation survey (16 responses, 11 retained) and modelled six critical success factors with ISM and MICMAC analysis; paper being prepared for submission

PROJECTS

CivicLens, AI Civic Issue Reporting Platform | [Live App](#)

React, Firebase, Firestore, Cloud Functions, Gemini Vision API, Google Maps API

- Built at the Vibe2Ship Hackathon (Coding Ninjas x Google for Developers), learning React and Firebase during the event; Gemini Vision classifies photo reports by type and severity and Cloud Functions route them to the right department
- Real-time map with severity-coded pins, role-based citizen and authority views, and a Civic Champions leaderboard

FinCalc, Investment Returns Calculator | [Live App](#) | [GitHub](#)

Python, Streamlit, Pandas, NumPy, Matplotlib

- Deployed Streamlit app with three calculators (SIP, lump sum, FD vs mutual fund), synced slider and exact-entry inputs, custom Indian number formatting and themed charts

Personal Portfolio | [Live Site](#)

Deployed on Vercel

Independent Research (in progress): failure-mode taxonomy for document-grounded question answering in frontier LLMs, built on an original test set

PROGRAMS & CERTIFICATIONS

- **CVIT Summer School on AI 2026, IIIT Hyderabad:** selected as one of a limited number of undergraduates nationwide, in first year
- **Hackathons:** Vibe2Ship (Coding Ninjas x Google for Developers) | HCL GUVI India AI Impact Buildathon | Smart India Hackathon 2026 (AI dementia-care platform, in progress)
- Copado DevOps AI Certification | Claude Code 101 | Google Gemini Certified Student | Finlatics Business Analytics Program

LEADERSHIP

- **Joint Secretary, IEEE Computational Intelligence Society (CIS), MIT Bengaluru:** organising a two-day AI security event (prompt injection lecture and a hands-on jailbreak CTF); lead sponsor and grant outreach
- **Member, Student Research Committee (SRC),** Research Office, MIT Bengaluru | **President,** The Literature Society, MIT Bengaluru
- **Associate, Office of Alumni Relations:** alumni outreach and weekly metric reports | **Working Committee, MAHE Innovation Centre (E-Cell), 2025–26**

ACHIEVEMENTS

- MVPP (formerly JSTSE) All-India Rank 217 and Delhi Govt. scholarship | BRICS Mathematics Challenge, full score | 4 Behes debate medals | 1st Place, alèy 2026 poetry competition

TECHNICAL SKILLS

Languages: Python, Java, C | **ML/AI:** TensorFlow, CNNs, transfer learning, NLP, Gemini API, LLM evaluation and red-teaming

Web & Cloud: React, Streamlit, Firebase, Firestore, Google Cloud Functions, Google Maps API, Vercel

Data & Tools: Pandas, NumPy, Matplotlib, Power BI, Git/GitHub, VS Code | **Currently learning:** SQL, C++, Data Structures & Algorithms
